

The Community Outreach Toolkit

Introducing the Toolkit

We're pleased to share the Community Outreach Toolkit, developed within the Learning for All project. Designed for staff in adult education – from administrators to educators – it supports anyone involved in outreach. Its purpose is to help organisations engage with learners who are often overlooked, such as migrants, disadvantaged adults, or those who don't see themselves as learners.

Why Outreach Matters

Effective outreach is more than advertising courses. It's about meeting people where they are, listening to their needs, and removing barriers to access. This toolkit draws on extensive European research and experience, offering clear strategies for building trust and creating opportunities with diverse groups.

What You'll Find Inside

The toolkit blends theory and practice. It provides frameworks for inclusive community engagement, guidance on mapping local needs, and advice on overcoming barriers. It also includes practical tools such as event guides, intercultural communication tips, and inspiring success stories from across Europe. Available online or as a free PDF, it's ready to help turn outreach goals into real impact.
